In a long-drawn-out, tedious program that required more than four hours to complete, the annual A.A.U. relay carnival was run off at the Coliseum yesterday afternoon. Sparkling performances in half a dozen events were all that kept the spectators from falling sound asleep, so slowly was the affair staged.

Last year we remarked that there were too many events on the program. In looking over yesterday's program we noted that four more races had been added. At the rate this meet is growing it will soon require several days to stage the darn thing, a la the Olympic Games.

TOO MANY EVENTS

Referee Bob Weaver did his best to speed things up but when you have twenty-six events to run off, plus half a dozen heats, there isn't much chance to make time. It was a slow-motion presentation and probably filmed that way by news-reel cameramen on the job.

Those who saw the lengthy program even partially will probably want to forget it, while those who weren't on deck might like to read what happened, so here goes with the main highlights:

(1.) Herman Brix, the big blond from Washington, shoved the shot 50ft. 2 1-4in. on his first heave and thereby won the event, John Kuck, the world's champion, being unable to generate enough fire to come dangerously close to the ex-Husky's effort.

(2.) Nathaniel George, the ducky flyer from Whittier College, annexed the open 100-yard dash in the very splendid early season time of 9 4-5s. Charley Borah, the Trojan flash, did not run in this or any other event yesterday.

(3.) Juddy Welch, pride of Pasadena, toyed with his rivals in the 120-yard high hurdles, winning in the impressive time of 14 4-5s. Juddy trimmed a lot of pretty good timber toppers in this event. The race was a nightmare for a bunch of boys who either fell or ran around their obstacles.

(4.) Dr. Clarence Houser, the well-known Pico Boulevard tooth puller, tossed the discus 153ft., a very, very fair performance for an old man who doesn't get much time to practice other than by yanking molars.

(5.) Marvin Maurer, a puny looking little sprite who used to pick up a lot o' firsts in Class C sprint events at high-school meets, provided one of the major upsets of the day when he trounced Charles Anderson, highly-touted Trojan freshman, in the finals of the novice century. Anderson was reported to have done 94-5s. last week at Howard Field, but Maurer beat him handily in 101-5s. yesterday.

(6.) Jimmy De Mera, the javelin tosser from the north country, sailed the spear 203ft. to defeat his two team-mates, Chuck Eaton and Chuck Harlow, who placed second and third, respectively, with throws of 192 ft. each.

what was said to be a new world's discus record for women with a prodigious heave of 117ft. and some odd inches. This bettered by a foot the old mark.

(8.) Jack Williams of the Trojans won the pole vault at 13ft. 3in., with eleven men in the competition bettering 12ft. Williams might have gone higher but a brisk gale sprang up suddenly and that finished the vaulting.

For those who are interested in the fortunes of the Southern California varsity—Schleimer bettered 45ft. to cop third place in the shot-put. Jim Stewart, who is still competing unattached for some reason which hasn't been disclosed, tossed the discus 142ft. 7in., which will get him somewhere against Stanford, provided he is eligible to compete at that time. Jim won the high jump at 6ft. 1in.

SWEDE SHOWS SPEED

The relays were just so-so. It was possible to watch most of the races without danger of sudden heart failure from the strain or excitement. Four Sherman Indians gave the Trojan milers a battle clear to the last forty yards in the four-mile relay, but Bob Swede, who had been kidding his foe along, suddenly cut loose with a terrific sprint at this stage and won as he pleased in a space-annihilating gallop.

Anderson, the Trojan frosh star, although beaten by Maurer in the century, came back and nipped Russ Slocum of Glendale in a stirring relay. His speed gave the Trobables the half-mile baton passing event in 1m. 32s. Maurer is a Trojan sophomore and may come in handy this year.

George had too much drive for his rivals in the open hundred. At that this red-headed chap Geyer of Santa Ana J. C. gave him a real battle right to the tape. Geyer's time must have been under 10s. flat. George will win a lot of races this year. Another colored boy, West of Jefferson, nosed out Murray Schultz for third in this event.

Welsh, running in beautiful form, was all by himself in the hurdles. Boyd Comstock, who doctored up Jedd's obstacle-leaping technique last year, sat in the press box and thoroughly enjoyed watching his protege clear every hurdle gracefully and with plenty of driving power. Dick Pomeroy, the L.A.A.C. veteran, was second, with Dick Bell, former Pomona star now running for the Mercuries, third.

AZTECS IMPRESSIVE

San Diego State made a splendid showing in the relays. Coach Peterson's boys won the Southern

Conference mile relay in 4m. 28s., Oliver Worden nosing out Henry Cobb of Pomona at the tape. Worden ran a beautiful 440, coming from behind to make up a slight lead which Cobb had enjoyed at the start of the race. The Aztecs placed in every relay event they entered.

Occidental won the half-mile and two-mile events for the Southern Conference. The latter was a rip-snorter, with Appleton putting on a burst of speed to trim his Pomona rival on the last lap.

Track officials must spend the entire off season thinking up ways and means of keeping press representatives off the field. It was the same old story yesterday, with the typewriter boys having to battle their way past a flock of officious squirts, despite the fact that badges were worn by those seeking a bit of news. If those official badges don't mean any more than they did yesterday the meet officials can take 'em all and wallpaper their parlors with 'em.

the live players. They were in and out like so many streaks of lightning; in fact, the only game I had ever seen which compared in speed with this was ice hockey.

The perfect co-ordination of hand and eye of the men as they raced down the field bouncing the ball and dodging round opponents; the wonderful control with which they checked their wild career and gently tossed the ball into the net; the speed and sureness with which they leaped into the air and caught the
