## CARD CAPTAIN BETTERS MARK BY FOUR FEET

Trojans Win Intercollegiate Track Championship With Stanford in Second Place

BY PAUL LOWRY

Sports Editor of "The Times". STANFORD STADIUM, May 17.—A mighty heave from the brawny right arm of Eric Krenz, Stanford captain, and a new world's record in the discus went into the record books here ioday.

The new mark is 167ft. 5%in. The marvelous throw shattered

Krenz's own record of 163ft. 8 3-4in, and eventually will displace the ap-

proved world's mark which now stands to the credit of Bud Houser

The international federation approve these new feats every two years, and Krenz's record will not come up for scrutiny until 1932.

It was in the Stanford Stadium that Houser threw the

platter for a world's record four

And it was therefore, quite fitting that Krenz, in rare form, should reclaim the mark for Stanford in its own stadium.

## NO FLUKE

It was by no fluke that Krens today laid claim to an undisputed record.

Three times he bettered his own existing records. His throws in order were: 163ft. 10 1-2in.; 164ft. Sin.; 167ft. 5 3-8in.

The 164-foot toss was disqualified, the officials ruling that his foot was outside the cir-

cle when he started the throw. Krenz thereupon unleashed his 163ft, 10 1-2in. toss and

soon followed it up with the new world's record, Krenz's feat was the bright an

shining feature of the annual California intercollegiate track-andfield championships.

## TROJANS WIN

The University of Southern Callfornia lived up to the dope sheets and won the meet with a total of 78 13-15 points, but as the result of several upsets Stanford made the meet much closer than expected

The Cardinals were second with 62 1-15 points, followed by California with 17 1-30 and U.C.L.A., 7 1-30.

Second only to Krenz's remarkable performance, was the sprint duels between Frank Wykoff of S.C. and Hec Dyer of Stanford in the 100 and 220.

And the question as to who is the best sprinter in the State is still unsettle?.

Wykoff won the 100 by five feet in 9 7-10s. And Dyer had the same edge in the 220 in 21 5-10s. A breeze strong enough to hamper the (Continued from First Page) runners out down, the time in th dashes, as is did either of the run ming contin.
