

SIXTEEN ATHLETES GAIN POSITIONS IN FINALS

Eastman, Wykoff, Record Quality for Two Events; Speedster Surprise Star in 220

BY PAUL LOWRY

Sports Editor, "The Times"

BERKELEY, July 1. (Exclusive)—To the tune of seventeen qualifiers for nineteen places, University of Southern California took a strangle hold on the fifty-sixth I.C.A.-A. championship in Edwards Stadium.

In this stirring prelude to the battle which will be fought out tomorrow for the title, 10,000 persons saw the Trojans qualify men in all but one of the eleven championship events contested this afternoon. Troy failed in the hammer because it had no entries.

Stanford was second in the qualifying trials, placing seven men for ten positions, but has nothing with which to check the amazing massed strength of Southern California. Harvard, Yale, Princeton, New York and other eastern universities were far down the lists in the qualifying trials.

No meet records were broken, but Metcalf of Dartmouth came within one-half inch of smashing the javelin mark of 220ft. 11 1/4in. established by Churchill of California last year. Metcalf all but tossed the spear out of the stadium on his first trial. He quit then, and saved his strength for tomorrow's finals.

EASY FOR BEN

Blazing Ben Eastman, Stanford's great star, won two comparatively easy races—his 440 trial, heat in 48.5s. and the 880 in 1m. 37.4s.

Carr of Pennsylvania turned in the fastest quarter of the day with a mark of 47.7s.

This race will be one of the big features tomorrow with Eastman, Carr of Pennsylvania and Warner of Yale fighting it out for first. They looked the strongest this afternoon with Ablowich, the Southern California sophomore, and Woessner being the next best bets.

The real record of the day was established by Southern California when the Trojans virtually whole-hogged the broad jump by qualifying four men for the six places—Barber, Paul, McFadden and Johnson. They also placed three men in the high hurdles—Payne, Stokes and Welsh. Bills was eliminated in one of the heats.

Stanford came close to this unusual mark by placing three men in both shot and discus—Nellie Gray, Laborde and Lyman in the first named event and Jones, Laborde and Gray in the discus.

SHOW APPRECIATION

Based on today's showing Southern California and Stanford will run one-two tomorrow, with the battle wide open in the second division for third place.

This is the first time in history

TROJANS LEAD QUALIFIERS

(Continued from Seventh Page)

the I.C.A.A.A. meet has ever been held in the West, and Southern California and Stanford apparently are going to show their appreciation by mopping up tomorrow, with California having something of a chance for third.

Although the eastern I.C.A.A.A. officials were supposed to show the wild and woolly West something about running off meets somebody threw a monkey wrench in the machinery.

Trials, which were to end shortly after 5 o'clock, did not finish until 6:30. Officials went rushing madly from the start of the 120-yard race to the finish line, for example, and wasted valuable time in other ways. False starts were the rule in every race. The races were timed by the new electrical starting device invented by Gustav Kirby, of the I.C.A.A., and referee of today's meet. The machine apparently worked in fine shape.

Both Frank Wykoff of Southern California and Bob Kiesel of California won their preliminary heats in the 100 in 9.8s. each. These were the fastest of the four heats, eight men running to a heat.

In the semifinals Hardy of Cornell created a mild surprise by beating Kiesel in 9.3s. Kiesel was off to a bad start. Wykoff won his semifinal in the same time with Fraser of West Virginia second.

SURPRISE OF DAY

One of the biggest surprises of the day was the appearance of Wykoff in the 120. He was expected to run only the 100, but captured the second fastest heat in 21.6s. Kiesel led with 21.2s.

One of the defending champions—Bob Hall of Southern California—came to grief when he failed to qualify in the shot put. Stanford dominated this event with Nellie Gray, Laborde and Lyman rooting in the first three places and apparently capable of staying there during the finals. Hall didn't even get in the first ten competitors, all of whom were given two extra tosses in cutting the field to six qualifiers. In a measure Hall redeemed himself by qualifying third back of Laborde and Jones of Stanford in the discus.

Nobody was within twenty feet of Metcalf in the javelin, but California qualified Miles and Waterbury and Southern California has Williamson in the lead.

Record. Harvard's defending champion in the high hurdles, nearly eliminated himself by running a poor third in one of the heats. But the fighting redhead was decisive in his victory in the semifinals.

He is one of the men in the meet who has the chance to distinguish himself by winning the I.C.A.A. crown in his favorite event for three years running. The other two are Wykoff of Southern California, who has captured the 100 the past two years, and Bill Connor, the 6ft. 4in. string bean of Columbia who has won the high jump two times running.

DUELS HOLD CALCIUM

All of the track events promise to be epics tomorrow, but the Kiesel-Wykoff duels in the sprints, Eastman, Carr and Warner in the quarter and Eastman and Hallowell in the half are the most eagerly awaited. McGeagh of Southern California surprised by running the fastest 800 heat today, in 2.5s.

Southern California's remarkable strength in all events makes the Dirk Templeton dope sheets look good—23 for Southern California and 25 for Stanford. Virtually all of the seventeen men who qualified for S.C. today will score points in their events tomorrow, and in the events which were not contested today—pole vault, high jump, mile and two-mile—Troy has added power in the pole vault and high jump. BILL CARR WINS QUARTER IN WORLD RECORD TIME

S.C. Sets Meet Scoring Mark to Take Cup; Wykoff, Kiesel Split Sprint Honors

BY PAUL LOWRY

Sports Editor, "The Times"

EDWARDS STADIUM (Berkeley) July 2.—The track and field avalanche that University of Southern California loosed here yesterday finished its devastating swarth by sweeping to an overwhelming victory and setting up an all-time scoring record in the first I.C.A.-A. meet ever held in the West.

HEC DYER STAR AT LONG BEACH

*Sprinter Scores Double Win
and Ties Record*

*Genung Beats Sansone in
800-Meter Race*

*Vic Williams Fails to Get
400-Meter Place*

BY BRAVEN DYER

Across the page on which appear the names of America's leading sprinters write the name of Hector Dyer. For the second time in successive days the former Stanford star tied the official world's record for 100 meters when he won the finals of this event before 3000 fans at Long Beach yesterday afternoon. An hour later he scored his second triumph by hitting the tape first over the 200-meter route around a curve.

Handicapped during the early spring by an injured leg, Dyer proved in his two-day performance at Stephens Field that he will give all of Uncle Sam's flyers plenty of competition in the final Olympic trials at Stanford two weeks hence.

MONTAGUE SECOND

Hec had to run at his best yesterday to beat Ralph Montague of the Olympic Club of San Francisco in the 100-meter race, but in the 200 meters Dyer had things pretty much his own way. The slim-limbed L.A.A.C. youth was clocked in 10.4s. for the 100 and 21.7s. for the longer race. The first mark was one-fifth of a second better than the Olympic record, while the latter fell one-tenth shy of the Games standard. Dyer's 10.4s. race tied the official world's record held jointly by Charles Paddock and Eddie Tolan. He did 21.6s. Friday.

Some idea of Dyer's class can be gained by glancing at Tolan's time in Evanston yester-

Two meet records were shattered, one involving a world mark as one sensational performance followed another.

Blazing Ben Eastman of Stanford was beaten by little Bill Carr of Penn in the 440, the time of 47s. flat breaking the world mark of 47 2-5s. set by Ted Meredith in 1916 and equaled by Vic Williams in the I.C.A.A. A.A. meet last year.

Frank Wykoff and Bullet Bob Kiesel divided honors in a pair of spectacular sprint races, Wykoff retaining the crown he has won for the past two years in the shorter distance and Kiesel retaliating by nosing the Trojan in the furlong. The times were 9.9s. and 21.3s., respectively.

AMAZING SCORE

Scoring in twelve out of the fifteen championship events, Southern California rolled up the astonishing total of 623-4 points, exceeding the wildest premeet imaginations of the dopsters. The Trojans failed to score only in the mile, two-mile and hammer throw. In the latter event they had no entries.

Stanford made it a one-two meet for the west by taking second place with a total of 33 points while Yale led the contingent of eastern point gatherers with a safe margin for third place, 24 1/2 points.

The second meet record of the day was established by Eastman who came back and made up for his loss of the quarter by running the 880 in 1m. 51.9s. This displaced the mark of 1m. 52.2s. set by Phil Edwards of New York University in 1929. Eastman won by nearly twenty yards.

Southern California's superior all-round scoring strength brought with it two individual championships and ties for two others. Wykoff and Barber retained titles they won last year. Graber shared his with Thompson of Yale, and Miller of Stanford in the pole vault, while Van Osdel secured a half portion of Bill O'Connor's two-year-old crown in the high jump.

VERY CLOSE

The hurdle races were sensationally close with Record winning the

high stakes for the third time in as many years while Payne and Bernard in the low.

In winning themselves the first I.C.A.A. meet on record, the Trojans scored their third successive victory and the needed fifth leg to give them permanent possession of the I.C.A.A. trophy. Southern California has won five meets in the past eight years, 1923-24, 1925-26-27.

The victory of Carr over Eastman was the biggest eastern achievement of the day, and was accomplished by a beautifully timed drive that swept it in a little Pennsylvania rhythmically by about two 25 yards from home.

Eastman has run the 440 in 54.46 this year, but he did not face such a field as the one that went from the starting line today, nor had he run here on a previous day as he did in this brilliant track and field classic of the East.

This was the only world mark that was damaged, although Miller, Greber and Thompson, all took turns in coming dangerously close to clearing 147. 2 1/2-148, for a new standard in the pole vault. All three tied for first at 137. 3/8.

By contrast with yesterday's gloomy aspect when the fog banks rolled in over the Berkeley hills, it was a typically warm and sultry California day as the shot putters stepped into the ring to open the meet at 1:30.

HARPER SECOND

Nelle Gray of Stanford, who led the trials, was the first of the athletes to react to the favorable conditions. He tossed the sixteen-pound lead ball 511. 11 1/2-512, to improve yesterday's mark by nearly a foot. This was only one and one-eighth inches short of Harlow Roberts's meet record. Harper of Southern California, and Lyman of Stanford both bettered their qualifying marks, Harper moving up from sixth to second place with a toss of 497. 8 1/2-498. It was the Trojan sophomore's greatest effort. He had not been expected to place.

Adding eight feet to his first day's effort Williamson moved up from third to second place with a toss of 484. 8 1/2-485, in the javelin. This gave U.S.C. four more points, making the Trojans to sneak up on Stanford, which had possessed 27 points in the shot. The score at the end of two events was, Stanford 18, Southern California 8. Merrill of Dartmouth was unable to better his opening-day winning mark, one-half inch back of lanky Ken Churchville's meet record of 230. 11 1/2-231. Miles and Waterbury took fourth and fifth for California.

The high hurdles gave the crowd its first big thrill in the track events. Eugene Record, Harvard's fighting red-head, was the event in a sensational blanket finish, with Stokes, Lockwood and Kendall. Welch was inches back and Payne was the sixth man. Record held a yard lead over the last hurdle, but this was whittled to a couple of whiskers at the tape.

After a false start by Hardy of Cornell in the 100-yard dash Johnny McHugh got the boys away perfectly. Flying Frankie W'yhoff of Southern California grabbed a feet lead in the first forty yards and held it in a driving finish, with Kiesel of California. Hardy of Cornell was a yard back, closely followed by Hall of S.C. and Frantz of West Virginia. Kelley of Georgetown, who took third last year, was sixth. The time was 16.

HALSTEAD OUT OF MONEY

Letting Dean Nordell, Crowley and Hollowell back it out for the lead on the last lap of the mile, Mangas of Cornell came through with a rousing finish to tip Hollowell, the defending champion, at the tape. It was only a matter of inches with the time of 4m. 24.8. Just four-fifths of a second behind the old meet record set by John Paul Jones of Cornell in 1913. One hundred yards from home Hollowell of Harvard apparently had the race in his pocket, having passed Dean of Pennsylvania, Nordell of New York U. and Crowley of Manhattan in the order named. Seventy-five yards away Mangas uncoiled his spine. He timed it perfectly and hit the tape going over as Hollowell looked around with a wide smile to see who had robbed him of the championship he won last year. Halstead of Southern California went out in front on the first lap, but the pace was too hot and after making another false bid early in the third lap he dropped gradually back. The first lap was run in 51 seconds.

Conditions were perfect for Eastman in the quarter-mile. He drove the pole, set the lead and ran the race as he liked it, but he couldn't check the closing rush of Carr of Penn. It was the first time this year that Eastman has wavered as he did today. His legs almost buckled as he lost his smooth-flowing form and lowered his blood head in a vain effort to stave off the rhythmic challenge of Carr of Penn in a world-round-smashing race of 576. 3/8-577. Carr passed Blasing Ben twenty-five yards from home and had five feet between himself and the Stanford star at the tape. Warner of Yale passed Alivovich of Southern California in the last five yards. Wassener was caught in the rack at the start and never got out.

Stanford picked up nine points in the decus, but Bob Jones, the defending champion, displaced his team-mate, Henri Labode, with a throw of 1007. 3/8. Hall held the

third place he gained in the trials yesterday. Southern California almost made a grand slam in the broad jump when Barber, Johnson, McFadden and Paul finished one-two-four and five. McNally of Holy Cross cut in for third-place points. Barber was unable to better his mark of the trials.

BEN WINS HALT

An hour after he lost the 440 Eastman came back to duplicate his last year's stunt and capture the 880 in new meet record time of 1m. 51.2s. It was a walkaway for Blazing Ben, who had fifteen yards on Turner of Michigan at the tape with Dawson of Princeton, McGeagh and Kelly of Georgetown, finishing in the order. Hallowell of Harvard tried to cut the mustard in this race after his strenuous mile, but had to drop back after a short challenge.

McCluskey's victory in the two-mile was as decisive as Eastman's in the 880. He went out in the lead on the first lap, held it all the way and won by twenty-five yards from Bonthron of Princeton. Others in this race had better form, but none had the stamina in ground-covering qualities of the little Fordham star. Callahan of Southern California finished in the second division with Lee of California and Ferrie of Stanford waging a bitter battle for the last position in a field of nineteen starters. Ferrie won it.

Fales cinched third place for Yale in the team standings by noeing out Payne of Southern California in the low hurdles. His time was 23.8s. Record of Harvard and Carls of S. C. were inches behind in the battle for third and fourth places. Meier of Stanford was the fifth man.

collegiate record set in 1913 by a famed predecessor, John Paul Jones, also of Cornell.

Hallowell could not meet Mangan's drive in the last five yards of a sizzling sprint. Crowley, of Manhattan, was third in a close finish with Coan of Pennsylvania, and Nordell of New York University, ending up in the order named. Southern California's Wykoff and California's Kiesel settled their sprint rivalry in a manner satisfactory to their followers. Wykoff finished a stride ahead of Kiesel in the 100, but the winning time of 9.2s. was far from comparable with the best efforts of the pair.

Wykoff is an applicant for a new world's record of 9.4s. made last year, while Kiesel has twice equaled the accepted record of 9.5s. this season. Wykoff was out of his holes late, but overtook Kiesel about halfway and steamed into the lead shortly after. Hardy of Cornell was third, Ball of Southern California fourth, and Frazer of West Virginia shut out Kelley of Georgetown for the last scoring place.

GAINS REVENGE

The California sophomore gained revenge in the 220, however, defeating Wykoff more than a yard in 21.3s. Kiesel took the lead at 150 yards and finished strong.

Record ran a heady race in the high barriers and followed with a third place in the 220 lows. He was a step better than Stokes of U.S.C. in the highs. The time of 15s. was four-tenths of a second slower than that which won for him last year.

A great throw of 220ft. 10 3/4-in. made in yesterday's trials won the javelin event for Mal Metcalf, Dartmouth's giant candidate for the Olympic Games team. Well out in front, the six-foot three-inch visiting star contented himself with some easy efforts today while his rivals fought it out for other positions, Frank Williamson of U.S.C. taking second with 204ft. 8 1/8-in. Metcalf's mark was a half-inch short of the intercollegiate record by Ken Churchill of California last year.

Stanford's hitherto impregnable phalanx in the shot put crumbled before the assault of a U.S.C. sophomore, Heston Harper, who got off a heave of 49ft. 9 1/2-in. to claim second place.

Nelson Gray, Stanford's "big boy," was crowned new champion with a put of 51ft. 11 1/8-in., one and one-eighth inches short of the intercollegiate record established by Harlow Rothert of Stanford in 1930.

Harper qualified sixth yesterday with 47ft. 7 1/4-in. in trials that saw his team-mate and defending titleholder, Bob Hall, eliminated. The Trojan was not figured to displace either Lyman or Laborde of Stanford, forced to take third and fourth positions, respectively.

The pole vault ended in a triple tie between Graber of U.S.C., defending champion; Miller of Stanford and Thompson of Yale at 13ft. 10in. The trio sought to break the world record of 14ft. 1 1/4-in. in a trial after the official tie, but upset the bar on each attempt.

McDOUGAL FAILS

Grant McDougal of Pennsylvania, I.C.A.A.A. champion in the hammer throw and favorite to win today's competition, was unexpectedly shut out. Peter Zarembo of New York University, improved his mark of yesterday by nearly twenty-three feet to score a surprise win at 170ft. 6 5/8-in. Vic Malin of Yale was second, six feet back, and was followed by Resnick of New York University, Converse of Yale, and Perkins of Colby in that order.
