

STOCKHOLM (A)—Samson Kimombwa, Kenya's new world record holder at 10,000 meters, won his specialty at the opening of a two-day international track and field meet at Stockholm's Olympic Stadium Monday night with the third best clocking ever recorded for the distance.

Kimombwa's time of 27:35.5 and the javelin throw of 308-9 by Hungarian Miklos Nemeth were the highlights of the meet. Last Thursday, Kimombwa ran his world record 27:30.5

Nemeth, the Olympic champion at Montreal last year, opened the javelin competition with his toss, which was just 1½ feet shy of his world record and the third longest toss in history. Nemeth then withdrew from competition because of a sore arm but the other javelin throwers came nowhere near his mark.
